EDUCATION

Rochester Institute of Technology

Rochester, NY

Bachelor of Science in Software Engineering

Aug. 2026

- **Relevant Courses:** Analysis of Algorithms, Discrete Math for Computing, Engineering Cloud Software Systems, Engineering of Concurrent & Distributed Software Systems, Engineering of Enterprise Software Systems, Engineering of Software Subsystems, Engineering Secure Software, Human Centered Requirements and Design, Software Design Principles and Patterns, Software Requirements and Architecture, Software Testing, Web Engineering

EXPERIENCE

Software Engineering Intern

Aug. 2025 – Dec. 2025

Rochester Institute of Technology

Rochester, NY

- Facilitated software and hardware development across 6 Multidisciplinary Senior Design engineering teams
- Re-architected an AWS backend and enhanced a React frontend for device telemetry and management
- Implemented concurrent C applications for ESP32 and Python UIs on a Raspberry Pi-based embedded system

Software Engineering Intern

May 2025 – Aug. 2025

Rochester Institute of Technology

Rochester, NY

- Contributed to the development of the Teaching Assistant Portal on apps.se.rit.edu as part of a 4-person team
- Collaborated with other apps.se.rit.edu teams on shared components and resources
- Developed with React, Next.js, JavaScript, MariaDB, and Prisma; used Git and GitHub Projects for version control

Teaching Assistant

Aug. 2024 – Dec. 2024

Rochester Institute of Technology

Rochester, NY

- Supported instruction for SWEN-383 - Software Design Principles and Patterns
- Provided classroom management support by supervising, assisting, and providing feedback to students and faculty

General Management Consultant Intern

Jun. 2024 – Aug. 2024

Booz Allen Hamilton

McLean, VA

- Consulted with clients to develop solutions aimed at improving business operations
- Developed the PennyOps project as part of a 4-person Scrum team
- Leveraged AWS, Terraform, JavaScript, React, Remix, Git, Jira, and Confluence

PROJECTS

CWAST | *React, Playwright, Docker, Nginx*

Jan. 2026 – Aug. 2026

- Developed CWAST (Cognitive Work Analysis Software Tool), an open-source web application, as part of a 6-person Agile Scrum team
- Deployed CWAST on an RIT vSphere Ubuntu VM using Docker, Nginx, and systemd for persistent services
- Developed Playwright end-to-end and integration tests with mocked APIs, covering 126 tests across 23 files

Fit4Cast | *AWS, Terraform, JavaScript*

Jan. 2025 – May 2025

- Developed a weather-driven fitness application as part of a 5-person team, recommending weather-based activities
- Developed with AWS Amplify, Lambda, SNS, DynamoDB, EventBridge, API Gateway, Lex, and Cognito; provisioned infrastructure with Terraform
- Developed in Visual Studio Code; managed version control with Git/GitHub and project tracking with Trello

MIDI-File Player | *C, STM32*

Jan. 2024 – May 2024

- Developed a MIDI-File Player for an STM32 Nucleo board with local and remote control
- Implemented MIDI parsing and playback, LED control, and command handling through buttons and terminal input
- Developed in C using STM32CubeIDE and Git

TECHNICAL SKILLS

Languages: Java, Python, C/C++, C#, JavaScript, TypeScript, HTML/CSS, SQL

Frameworks & Libraries: React, Next.js, Angular, Remix, Node.js, Flask, Vite

Cloud & DevOps: AWS, Terraform, Docker, Nginx, vSphere

Testing & Tools: Playwright, pytest, Git, GitHub, GitLab, Jira, Confluence

Environments & Practices: Windows, macOS, Linux/Unix, Visual Studio, VS Code, STM32CubeIDE, Agile/Scrum, SDLC, OOP, REST APIs, Design Patterns, Code Review
